

HEIGHT ADJUSTABLE CONFERENCE

**Peter Lassen,
Designer**

Lead Time: 8-12weeks

Electric Height adjustment makes it easy to adjust the table to height required.
Meetings can be held in the standing position as well as the sitting position – making a healthy change to the meeting agenda.
The frame is made of anodized aluminium and brushed chromium-plated or powder coated steel.
Available in nine standard sizes to seat 6 – 24 people.
Table tops can be made in different shapes and available in linoleum, laminate and aluminium as well as veneer surfaces.
The design of the frame ensures plenty of legroom.

Suitable for commercial & home office.
