

Addit

Pelikan Design, *Designer*

Lead Time: 10-12 weeks

The Addit series was designed to create a series of simple, elegant and functional chairs – with unlimited combination options to make a personal impression on layouts- both with regard to design and functionality.

Addit is based on various components, which can be combined in different ways – depending on requirements, and needs. This makes the series ideal for companies that require a uniform visual design line in layouts, and also wish to fulfill different requirements for free zones, i.e. - auditoriums, canteens, etc. The series is made of birch veneer coated with film for attractive surface. All models are available with upholstered seats.
