

## EDGE SYSTEM

**Pearson Lloyd, *designer***

Lead Time: 9-12 weeks

Edge is a refined & soft desking system catering for café to casual meetings, or cable managed boardroom tables. The design provides economic, simple & unobtrusive frame structure even in long configurations. Table surfaces offered in laminate, veneers & glass and can be specified either inset within the aluminium frame or set mounted on top with an exposed edge. The beautiful frame (in gloss white, powdercoat black or polished aluminium silver) allows every table to be retrofitted with various accessories. Accessories include cable sock & handles, cable net, grommets, privacy screen, modesty roll screen and various stationary elements (magnetic marker boards, fabric pin boards, trays). Easy to clean, slim table design, allowing the range to include slim coffee tables as well as domestic use. Designers PearsonLloyd is a multi-award winning design team based in London.
